NATURES ROBBED OFF IT'S BEAUTY

*The beautiful nature surrounds
And I move worriedly around
I have wondered for a long while
Birds are singing sweet songs*

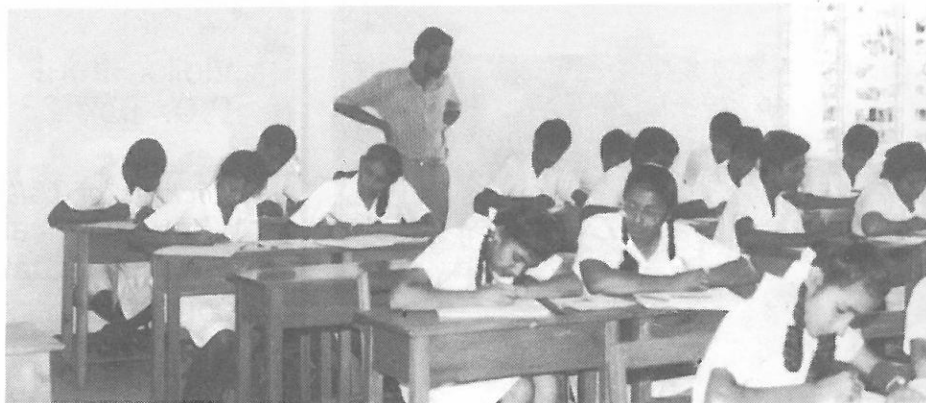

*Men have destroyed it
Cutting the forest every bit
Why should men do this
A section only they miss*

*Men destroy in name of progress
Plants are the ones that go under stress
Cocnrete jungles are constructed
For nature is not respected*

*men have filled with oil
Millions of dollar they spoil
Life of aquatic animals is sad
As many of their members are dead*

*Air they have polluted
Green House effect has resulted
Sea levels will soon rise high
Beautiful beaches will bid us bye*
